

WAR CLOUD GROWS DARKER EACH DAY

BATTLESHIPS MAY FORCE THE DARDANELLES.

The Sultan's Policy of Delaying Can Not Be Carried Much Farther—Turkish Gathering Under the Green Flag at Mahomer—Turkish Massacre Was Deliberately Planned.

Constantinople, Nov. 27, via Sofia, Bulgaria, Nov. 29.—In spite of the assurances which the Turkish minister of foreign affairs, Tewfik Pasha, gave the ambassadors of Great Britain, Russia, Austria and Italy Wednesday, that the firmans allowing the passage through the Dardanelles of four extra guardships for the use of their embassies would be immediately issued by the porte, the necessary documents have not been forthcoming. Frequent conferences between the ambassadors have taken place during the last twenty-four hours, and there have been many consultations between the Turkish ministers and the sultan at the palace regarding the same matter. The answer of the powers to the request of the porte that they refrain from pressing their demand for the extra guardships was that they could see no reason not to support the demands of their ambassadors for more effective means of protecting the foreign residents of Constantinople in an emergency, and in the presence of this unanimous reply it is considered in foreign official circles that the sultan has no alternative but to yield, especially in view of the probability that the powers will have the extra gunboats conveyed through the Dardanelles by battleships if the sultan persists in his dilatory tactics. That the porte anticipates trouble is evident from the fact that all the forts about the straits are now fully manned and supplied with ammunition and have been placed in the highest state of efficiency compatible with the circumstances. Searchlights are kept in good order and are worked nightly over the waters. For over a month past the work of strengthening the fortifications in this vicinity, and particularly about the Dardanelles, has been in progress, and it is understood that the system of submarine mines and torpedoes has been practically completed, so far as the resources of the government will allow it.

The British admiralty is said to have obtained complete soundings from English merchant steamers which have repeatedly passed the Dardanelles, and it is suspected in some quarters that British naval reserve officers may have been engaged on board these vessels in obtaining all the information necessary for the admiralty department. As to the system of mines and torpedoes about the Dardanelles, they do not cause much apprehension among the foreign officers here. They believe that a few torpedo-catchers could cut the shore-connecting wires in short order and that a little countermining would do the rest.

Trustworthy information which has reached here from Marsh confirms the worst reports concerning the massacre which is said to have occurred there recently. It appears that the outbreak occurred on Monday, Nov. 18. The Mussulmans, apparently at a given signal, acting in a deliberate manner, began the work of killing the Armenians, who, anticipating trouble, had done everything possible to defend themselves. The number of killed is estimated at several hundred men, women and children.

Three buildings belonging to the American mission there, the theological seminary, academy and a boarding house, were burned by the rioters, who looted the theological seminary previous to setting fire to that building. The Mussulmans killed two students belonging to the seminary. It is understood that the American missionaries, five in number, are safe.

Most startling reports are still current here regarding the preparations for trouble being made by Russia in her Black sea ports and along the frontier of Asiatic Turkey. The different divisions of the Black sea fleet, regular and volunteer, are said to have been brought up to the highest point of efficiency and to be ready for immediate operations.

The porte yesterday made another report to the ambassadors on the situation, announcing that the work of restoring order in the disturbed districts was progressing satisfactorily and that the reforms insisted upon by the powers were being effected as promptly as possible under the circumstances.

Less than one-half of the reserves called out have joined the colors, and it is not believed that any more men can be placed under arms. The arming and equipping of these forces has progressed to a certain stage and there seems to have stopped, as if the authorities were really, as currently reported, waiting for winter to do the rest.

The anxiety caused by the absence of direct news from Syria increases. It is reported, however, that large numbers of Turkish troops have been drafted there, and a religious war seems imminent. The soldiers are said to be bearing the green flag of Mohammedanism instead of the regular Turkish flag, denoting, it is claimed, that though the authorities assert that this mustering of fighting men is for the purpose of putting down the insurrection of the Druses, a wholesale onslaught upon the Christians of Syria may be anticipated.

Jerusalem is said to be crowded with Turkish troops and Palestine is reported to be overrun with the soldiers of the sultan. This is considered to be the most dangerous feature of the present situation.

It is reported that the extra gunboats of the powers, detailed for duty in the Bosphorus, have commenced to arrive at the entrance to the Dardanelles and are now awaiting permission to pass the straits.

MASSACRE WAS PLANNED.

Christian Portion of Marsh Fired at Three Points.

London, Nov. 30.—The Constantinople correspondent to the Daily News telegraphs to his paper that the embassies there have learned that in the massacre at Marsh Nov. 18 1,000 persons were killed. The Christian quarters of the town were burned from three points. A letter received describing previous massacres says that before it commenced the town crier ordered the Christian shops to be opened under a penalty for refusal. It was then that the pillage and murder began. The writer of this letter adds that there was no sign of an arising or resistance on the part of the Christians.

A Vienna dispatch to the Daily Telegraph says that the proposed naval demonstration by the powers against Turkey is now regarded as futile as a restraining influence. The latest news received from the interior of Turkey has a depressing influence upon the diplomatic circle. Reports have been received that renewed attempts to massacre the surviving Armenians at Erzerum have resulted in eight being killed. Some of the priests, in sheer despair, are advising their flocks to save their lives by embracing Islam.

Danger to American Missions.

London, Nov. 29.—A dispatch to the Daily News from Beyrout, dated Nov. 17, confirms the reports of the grave state of affairs existing in Syria and Palestine and the repeated danger in which the American mission has been placed by the riotous demonstration of the Mussulmans. The dispatch adds that Syria and Palestine are flooded with Turkish soldiers and states that in the country between Jaffa and Jerusalem there are 60,000 troops, all raised within the last twenty days.

Important Meeting of Railroad Managers.

New York, Nov. 29.—A meeting of the general managers of the Central Traffic and Trunk lines has been called for Dec. 5 in Chicago. A pool and division of the east-bound steamship business from Chicago will be probably finally settled. The question also of advancing clergy rates or entirely abolishing the ministerial half-fare permits will also be considered. Other questions to be acted upon are a reapportionment of the percentages in the freight pool; the inclusion of all live-stock shipments, local as well as through, in the pool, and the discontinuation of the Peoria tonnage statements, the same to be embodied in the Chicago statement.

Heavy Movement of Coal.

Pittsburg, Pa., Nov. 29.—Nearly 5,000,000 bushels of coal was started down the river yesterday, making a total going out on this rise of about 15,000,000 bushels. The river is receding rapidly, and, as there is no present prospect of more water, the tows with seven foot bows will of necessity have to tie up along the route before reaching Cincinnati. A wreck at Deadman's Island, near Swickley, Wednesday night, caused a loss of about 250,000 bushels, involving the sinking of barges being towed. The channel, however, was cleared sufficiently to permit the tows leaving here yesterday to pass through safely.

Fourteen Years for Balfour.

London, Nov. 29.—Sentences were pronounced in the queen's bench division of the high court of justice yesterday on Jabez S. Balfour, George Edward Brock and Morrell Theobald, convicted of fraud in connection with the Lands Allotment company and the House and Land Investment Trust companies, forming part of the Liberator group of institutions. Balfour was sentenced to fourteen years' penal servitude, seven years on each count. Brock and Theobald were sentenced to nine and four months respectively. All the other indictments against Balfour have been abandoned.

Cuban Insurgents Twice Defeated.

Havana, Nov. 29.—Advices received here from Santa Espritu, province of Santa Clara, say that the insurgents recently attacked Fort Jicotea, near Ciego de Avila, in the province of Puerto Principe. The garrison, it is stated, made a brave defense and the insurgents were repulsed, leaving twelve killed upon the field. The troops lost seven killed and had nineteen wounded. While operating against the insurgents in the Guantanamo district in the province of Santiago de Cuba the troops captured two insurgent camps, the enemy leaving four killed and eight wounded men in the hands of the soldiers.

Cruiser Minneapolis Sails.

Washington, Nov. 29.—A telegram received at the navy department yesterday said that the cruiser Minneapolis passed out through the Chesapeake capes at 1 o'clock Wednesday morning bound for Turkey. She probably will make the trip in about fifteen days, touching perhaps first at Gibraltar for mail.

CAUCUS RESULTS AT WASHINGTON

MUCH DISSATISFACTION IS BEING EXPRESSED.

Distribution of the House Offices Has Caused Some Bad Feeling—General Henderson May Be Made Sergeant-at-Arms, His Chances Being the Best at this Time.

Washington, Nov. 29.—There is some asperity among the friends of the disappointed candidate for clerk of the house at the fact that the delegations from Indiana and Ohio cast their solid vote for the eastern candidate for clerk. Some even, in their bitterness, go so far as to suggest that both Reed and McKinley may have injured themselves by this coalition between the Pennsylvania combination and Indiana and Ohio. The point is made that the friends of McKinley have made a mistake, in that they permitted the Ohio delegation to go solid for the eastern candidate, personally a man little known, who has been put forward by a formidable combination which is believed to be favorable to the candidacy of Mr. Reed for president, and in opposition to so well known a western man as General Henderson, who comes from a locality assumed to be friendly to Mr. McKinley. It is claimed that McKinley made an even greater mistake in aiding to select a much less known man from New York as doorkeeper, when it is now definitely known that New York state will have an aggressive candidate for president. Those who hold this view maintain that Reed and McKinley both have made a mistake in that they have created an antagonism that may be injurious to them in the central west.

These comments are of course based upon the assumption that there has been active participation by McKinley and Reed in the organization of the house. It is emphatically denied by the friends of Mr. Reed that he has taken any part whatever in the contest for the house offices, or has indicated to any one that he had a choice in the matter. And as for McKinley, his friends insist that he had no knowledge of the combination, and cannot be in any way connected with the movement.

There is some gossip afloat to the effect that older members of the house, dissatisfied with the way the McDowell combine has managed to gather in all the important offices, are considering an effort to elect General Henderson to the position of sergeant-at-arms. This position is set down on the McDowell slate for Ben Russell of Missouri, but the place has for generations been held by ex-members, and there is a feeling that it ought to go to some more prominent man than Russell. General Henderson and his close friends, when spoken to about it, say, smilingly, that he is still a candidate for the clerkship, and will fight it through on that line. The fact, however, that the balloting for sergeant-at-arms does not occur until after the clerkship is disposed of, makes it impractical for those desiring to see Henderson made sergeant-at-arms to make the fight for him, even if he remains in the clerkship race to the end. The position is by many looked upon as more satisfactory than the clerkship. It pays a salary nearly as large, and the annoyances of patronage and official cares are not nearly so great. Many of General Henderson's friends urged him originally to make the fight for this place, but he preferred to stay in the clerkship contest. It is believed, however, that the same element which urged him for the position, would now be glad to support him for it.

The southern members held a caucus last night and decided to stand together in support of General Henderson for clerk, Parker of Kentucky for sergeant-at-arms, and Tipton of Tennessee for doorkeeper. There were about a dozen present, and they observed the utmost secrecy as to the result of their caucus. The fact that they are still standing by Henderson shows that he has friends who do not concede his defeat, though the general impression is that his chances for the clerkship now are very slender, and that the best thing his friends could now do would be to make the fight for sergeant-at-arms.

Two Deaths in a New York Fire.

New York, Nov. 29.—Fireman John Halpin yesterday discovered the bodies of two men in the ruins of the fire which occurred at the old Volks building on the Bowery. They were found at the extreme back end of what was the stage of the theater. One of the bodies was in a sitting posture and the other was discovered in a reclining position. The head of the body found in a sitting posture was plainly visible from every part of the ruins, and it appeared surprising to those who saw it that it had not been found before. Neither body has been identified.

The President's Thanksgiving.

Washington, Nov. 29.—President Cleveland and Mrs. Cleveland came into town Thursday, and, after spending an hour at the white house, they attended services at the First Presbyterian church and listened to a sermon by Dr. Talmage, following the reading of the president's Thanksgiving proclamation and the rendition of several patriotic hymns. From church the president and Mrs. Cleveland drove directly to Woodley, where they enjoyed Thanksgiving dinner in privacy.

During the last forty-five minutes Muncie scored the only goal and won.

Crawfordsville, Ind., Nov. 29.—Wabash won her final game of the season, from the State university Thursday by a score of 16 to 12. This game gives Wabash the championship of the Indiana intercollegiate league. Purdue is not in this league. Her superior work put her with the western league.

Pittsburg, Pa., Nov. 29.—A general riot, in which forty or fifty football enthusiasts slugged each other, succeeded Thursday's game between the Duquesne and P. C. A. teams. The police had to restore order. Score—Duquesne, 10; Pittsburg A. C., 6.

Louisville, Ky., Nov. 29.—The Louisville Athletic club defeated the DePaul university football eleven here Thursday by a score of 12 to 10. The Hoosiers played a game brilliant at times, but rather ragged in spots, and would have won easily but for carelessness at critical points in the play.

Des Moines, Iowa, Nov. 29.—The scarlet and black of Iowa college, Grinnell, triumphed over the olive green and white of Des Moines V. M. C. A. in the football game for the state championship Thursday. The score was: Grinnell, 16; V. M. C. A., 4.

Cleveland, Ohio, Nov. 29.—Clear skies and a clear, crisp air combined to make Thursday an ideal football day. The opposing teams were the Pennsylvania state college and the Adelbert elevens, and the game resulted in a tie, 8 to 8.

ITALY'S POSITION.

Premier Crispi Makes Important Statements Regarding Turkey.

Rome, Nov. 29.—Important statements were made in the chamber of deputies last night by Premier Crispi and by Baron Blanc, Italian minister of foreign affairs concerning questions of Italy's internal and foreign policy, and especially her attitude toward Turkey, and, incidentally, the attitude of the other powers. Premier Crispi's statement was a long one and was largely devoted to the government's internal policy. He defended at length the Italian anti-socialist laws, and he asserted that in practice socialism differed little from anarchy. He admitted that the public security was not ideal, but said it was improving. The revival of Catholic activity throughout a great part of the world, he argued, was a matter for serious consideration, showing that liberty existed permitting religious societies to be reconstructed on a more solid basis. Regarding Turkey the premier stated that the powers were in accord, and he was confident that the peace would not be disturbed. If it were disturbed, however, Italy would not repeat her old mistakes and would see her rights safeguarded.

Indiana Pythians Adjourn.

INTERIOR DEPARTMENT.

Secretary Hoke Smith Makes His Annual Report.

Washington, Nov. 29.—Secretary Hoke Smith of the interior department has made his annual report to the president. The secretary dwells upon the necessity of eliminating politics from the management of Indian affairs and of conducting each reservation upon strictly business principles, the object being to make every Indian who remains upon the reservation self-supporting and ready as soon as possible to assume the duties of citizenship and be freed from the paternal care of the government. The secretary is of the opinion that if the resources of each reservation are treated intelligently and the Indians required to labor in those pursuits which are adapted to particular reservations, in a few years practically all the Indians can be made self-supporting.

The secretary also recommends that general authority, with the approval of the president, be given the Indian bureau to sell parts of Indian reservations, the money to be used exclusively in the improvement of allotted lands or for the purpose of furnishing agricultural implements and cattle to the Indians who may reside upon the remaining lands.

The report estimates the amount of public lands undisposed of to be about 600,000,000 acres at the close of the fiscal year, and shows that the total receipts during the year for public lands amounted to over \$2,000,000. The unadjusted land grants to railroads amount to nearly 90,000,000 acres.

Under the subject of forests the secretary calls attention to the fact that 17,000,000 acres are now included within forest reserves, the object being to thus preserve the forests for future use, and through their preservation to control the supply of water so that it may be stored and utilized for irrigation. The present force of the land office, it is stated, is inadequate to protect these reservations. The secretary criticizes the law authorizing the issue of permits for the cutting of timber from the public domain and urges that the timber cut therefrom should be sold for a sufficient sum to make it possible to preserve the standing forests and see that the cutting is done in a way not destructive to it.

South Carolina's New Constitution.

Columbia, S. C., Nov. 29.—South Carolina's constitutional convention will adjourn sine die next Tuesday. All the work of the convention has now been completed except that of final revision of the changes made in the constitution, which is in the hands of a committee. The body has been in session continuously, with the exception of a ten days' recess, since September 10. All males attaining their majority after 1898 must comply with an educational or property qualification in order to be allowed to vote. This clause is regarded with dissatisfaction by a large proportion of the citizens of the state. Doubt is expressed as to whether it will stand the test of review by the federal courts.

Caught in a Stiff Typhoon.

Victoria, B. C., Nov. 29.—The Northern Pacific steamship Tacoma, which has just arrived from China, had a severe experience in a typhoon off the coast of Japan. Four days after leaving Yokohama the ship encountered a hurricane in which her deckhouse, stores, hospital, and lifeboats were swept away by heavy seas. Immense quantities of oil were poured on the water, which saved the vessel from further damage, although the gale continued several hours. The Tacoma brought no news of the missing ship Strathnevis, which is now seven weeks overdue.

NO ULTIMATUM YET.

Amicable Settlement May Be Affected in Venezuela.

London, Nov. 29.—The Times publishes the following dispatch from its correspondent at Caracas, Venezuela, under date of Nov. 21: "It is officially stated that the revolutionary outbreak is of no importance. No British ultimatum has yet been received, and many of the influential Venezuelans urge an amicable settlement. The government is afraid that the tendering of an apology would be equivalent to recognizing the right of Great Britain to the disputed territory. Otherwise it is ready to give satisfaction. A considerable party favors a direct settlement of the frontier question without reference to the United States."

A DAY OF GAIETY WAS THANKSGIVING

MANY PLEASANT REUNIONS
WERE HELD.

"There Were Dances, Shooting-Tournaments, Theatrical Attractions and Other Events—Services Held in the Churches—Wedding Solemnized—The People Who 'Came and Went.'"

DAY of gaiety was Thanksgiving in this year of our Lord, A. D. 1895. Janesville made merry, and many family boards were surrounded by the loved ones who meet together but once a year. There were parties without number, and good cheer on every hand. In the churches thanks were returned to The All-wise One who furnishes the good things of this earth, while in the household and in public places it was proclaimed that this was the day of feast and of acknowledgments.

People marked it in their own way, and there were ways enough available to suit all people.

Many went to church. The Shooting Club held a tournament.

The cyclists, the barbers, the Odd Fellows and others danced.

And still others "got married." And some "just ate and rested."

Sleigh bells jingled joyously, and there was music at the opera house for those who danced not and neither did they rifle for turkey.

It was a day of joy.

P. Wilder.

A union meeting of the Episcopal churches was also held in the forenoon at Christ church, Rev. W. H. Wotton, pastor of Trinity occupying the pulpit. An offering was taken for the benefit of St. John's home. Previous to the union meeting, holy communion was celebrated by the rector, Rev. A. H. Barrington, this service occurring at 8 o'clock.

LECTURE COURSE IS OPENED.

The Redpath Grand Opera Company Give the First Entertainment.

The People's Lecture course was opened at the Congregational church Wednesday evening, with the concert of the Redpath Grand Opera Company. The enjoyment of the occasion was marred by the fact that Geneva Johnstone-Bishop was ill and unable to appear, but the work of Miss Maud Powell, the violinist, Mrs. Murray, the harpist, and Rudolph Von Scarpa, the pianist, was all that could be desired. Mrs. Bishop's illness was a great disappointment to the audience, and some of them did not remain to hear the other performers. The management announced at the completion of the program, that arrangements had been made to add another concert to the course, in which Mrs. Bishop will take part. There will be no extra charge for the course tickets, and if possible those buying single tickets last night will also be identified and admitted free of charge.

SHOOTING CLUB'S TOURNAMENT.

Many Visitors Were Present and Matches Were Closely Contested.

A score of shooters faced the traps at the Janesville Shooting club grounds yesterday. Clay pigeons and live birds were the targets and the matches were closely contested. The live birds were rather a poor lot, so high scores were the rule. Among the visiting shooters were A. Vance, Capron, Ill., Dr. Bean of Cherry Valley, Ill., John Baker, of Rockford, and Harry Sonn and Clarence Shannon of Edgerton.

TOOK VOWS ON THANKSGIVING DAY

Slightam-Hemmens.

George W. Slightam and Miss Alice Hemmens were quietly married at 6:30 o'clock last evening at the rectory of Christ church, Rev. A. H. Barrington performing the ceremony. William Whitney and Miss Jessie Hemmens, sister of the bride stood up with them, while Miss Alice Tanner and Miss Hattie Slightam also witnessed the ceremony. The newly wedded couple then repaired to the home of the bride's parents, Mr. and Mrs. Thomas Hemmens, 252 Lincoln street, where a reception was tendered them and a large number of relatives and friends tendered their congratulations. The presents were many and valuable and Mr. and Mrs. Slightam start out in life with the well wishes of many friends.

The bride is the daughter of Mr. and Mrs. Thomas Hemmens, and one of Janesville's well known and popular young ladies while the groom is the son of Mr. and Mrs. John Slightam. He is a fireman on the C. & N. W. road and is a sterling young man, who has won the respect of all by his many good traits in his character. Mr. and Mrs. Slightam will make Janesville their home.

Fingenbaum-Kliffson.

Chris. Fingenbaum of Beloit, and Miss Emma Josephine Kliffson of this city, were married at 3 o'clock Wednesday afternoon at the home of the bride's sister, Mrs. Walter Hazen, 165 Terrace street, Rev. Dr. Sabin Halsey, of Court Street Methodist church, officiating. Mr. and Mrs. Fingenbaum left at 4:30 for Madison and on their return they will at once go to house-keeping at 340 Locust street. Both young people are well known and universally popular. The bride is a most estimable young lady, while the groom, who was the leader of the Beloit Mandolin club in 1893, is a fine musician.

Proctor-Kooney.

Louie Proctor, son of Mr. and Mrs. G. A. Proctor, of La Prairie, and Miss Hattie Kooney, daughter of Mr. and Mrs. James Kooney, were married at St. Patrick's parsonage, Wednesday evening. Mr. and Mrs. Proctor will reside on the farm owned by the groom's father, and Mr. Proctor will have the entire management thereof. A handsome new residence was ready for them to take possession and they will begin house-keeping at once. Their life journey will be a happy

one will be the wish of their many friends.

Stuart-Shearer

In the presence of the immediate relatives only, George Sigley Stuart of Baraboo, and Miss Jessie Christine Shearer, of the city were united in the holy bond that unites both heart and life at 6:30 o'clock Wednesday evening, at the home of the bride's parents, Mr. and Mrs. James Shearer, 108 Mineral Point avenue. Rev. E. H. Pence pastor of the Presbyterian church performed the ceremony and following the service an elaborate wedding dinner was served under the supervision of Caterer George Shurtliff. Mr. and Mrs. Stuart left on the 9:30 train for Minneapolis and after a brief wedding trip they will make their home at Baraboo.

Although the wedding was an informal one, it was none the less joyous. The bride was attired in a handsome gown of satin striped tulle over white satin. The decorations were especially tasteful, pink and white being the prevailing colors, while the tables were embellished with smilax and white chrysanthemums.

Both young people are well known in Janesville. The bride is the eldest daughter of Mr. and Mrs. Shearer, and was born and raised in the Bower City. Of a charming personality, a sunny disposition and possessed of a true womanly heart, she made friends of all who have been honored with her acquaintance. Her accomplishments are many, but chief among them is a cultivated soprano voice which has often charmed local audiences.

Mr. Stuart, also, is no stranger in Janesville. For some time he made the Bower City his home, and during that period was a universal favorite. He now has charge of the C. & N. W. shops at Baraboo, a position usually given to an older man, and, therefore, a fitting compliment to the excellence of his judgment and the skill of his handicraft. As a mechanical expert he stands very high, and as a man his good qualities are equally prominent.

Mr. and Mrs. Stuart will be "at home" at Baraboo after December 25, and it will be the wish of all who know them that their life sky may reach from horizon to horizon, and that the black clouds of trouble may never obscure the sunlight of their existence.

Home Decoration.

"How things have changed since you and I were young, Becky. The old parlor, shut up tight year after year, and only used on state occasions; in it the set of hair-cloth-covered furniture, the what-not in the corner, the old lion rug, the vase on the staid old mantle, two or three quaint oil paintings, the large figured Brussels carpet and a precious little sunlight." How strange the contrast—the present and the past—how the woman of today is helped to make home beautiful.

A Few Hints :

Fancy draperies, scores of novelties, beautiful Silkolines, Pongee lined Draperies, Chinese high novelties, large figured Sateens in rich colorings, Cretonnes, the new Delf effect (blue and white Cotton Drapery, scroll design,) Novelty Buraps, and many more.

Other Things :

Largest line of Felt—many fancy art designs—hundreds of Pillow Tops—great variety; the new heavy twisted Cotton Cords, any combination, for finishing the edges of sofa pillows; Furniture Gimps—50 styles; Spreads, all sizes, colors and prices—50c to \$10.00; Furniture and Couch Coverings—an immense stock—50c to \$5.00; Laundry Bags—new ideas; China Silks—a strong line—every shade in plain, and 100 styles in figured Chinas including the new Persians; Dresser Covers—entirely new things in lace and fancy open work Muslin—not found elsewhere; Stamped Linens—the choicest collection, Filo Silk and Wash Twist—the Cutter make are the very best, never had a complaint,

HOLE IN A BRIDGE
CAUSED HIS FALLED. ATTLESEY OF FULTON
PAINFULLY HURT.

Thrown From His Cutter and Probably Injured Internally—Ugly Dog Is Killed—D. F. Sayre Lectures Entertainingly—Shoppers Anti-Horse Thief Society to Meet—County News.

Fulton, Nov. 29.—What may prove to be a serious accident happened to Ed Attlessey Wednesday afternoon. One of his horses stepped in a hole in a bridge near Sayre's bridge in such a way as to throw Mr. Attlessey from his seat in the cutter and hurt his back in a severe manner. The doctor was called and thinks the injuries are internal. Mr. Attlessey suffers much pain. Mr. Jansen that lives on the Jason Miller farm, has been obliged to kill his dog. It had grown so cross that no one could go into the yard without being chased. One day last week Mrs. Will Gardiner was set upon and her clothing was badly torn but escaped with a few scratches made by the dog's teeth.

Children in the neighborhood also had their clothes torn. It was a narrow escape to say the least for Mrs. Gardiner. Sunday evening Mr. D. F. Sayre gave a very interesting talk on Thanksgiving and temperance combined. It is very much to be regretted that many more could not have heard these subjects discussed as they were, for both talks presented truths which would help us all. The storm the fore part of the week prevented James Stewart and family from moving to Edgerton, as they expected. They will go some time next week, and will occupy the house recently vacated by Mr. Seaver, near the school house. Fred Stewart will move into his father's house as soon as they move out. James Sayre and family have moved in with Frank Sayre, Jr., for the winter. Mr. Dunn was prevented from preaching last Sunday morning by sickness. Mr. Witter is expected to preach next Sunday morning at the usual hour. Mr. and Mrs. Swader have gone to visit their daughter, near Footville, over Thanksgiving. The exercises at the school Wednesday afternoon were very pleasing, and all did well. The teachers deserve credit for the programme prepared. Mrs. Sue Fessenden is much better. Mrs. Peter Halverson is convalescent. Miss Bertha Pease's school has closed and she has returned home. O. P. Murwin transacted business in Evansville Monday. Darcey Bigger made a short stay in Madison Monday. He went by way of Evansville. Miss Ella Schofield has returned home after a very pleasant week's stay in Janesville among friends. Mr. Rowell's household goods were shipped from here last week. They go to Pine River, near Berlin, Waushara county, where they will make their future home. Mrs. W. H. Pease has returned to her home for a week or two's stay while Mrs. Nellie Hill will go to Appleton to make Mrs. Emma Wisney a visit of a week's duration. All are glad to see Mrs. Pease if only for a short time.

THE NEWS OF AFTON TOWN.

Missionary To Speak—Christian Endeavor Entertainment Planned.

Afton, Nov. 29.—Miss Ames, a missionary who has labored among the Chinese, will tell about work among the Celestials at the Baptist church next Sunday morning, at 10.30 o'clock. The Baptist Sunday school will hold a Christmas tree as usual this year, this having been decided on at last Sunday's session. The funeral of Mrs. Eliza Bolte was held from the Baptist church last Tuesday afternoon, at 2.30 p. m., Rev. E. H. Pence of Janesville, officiating. The interment was made at Afton cemetery. The pall bearers were W. B. Baines, S. E. Otis, L. H. Miller, O. G. Antide, W. H. Eldredge and John Yardy. Keasars, Frank P. Starr, J. B. Humphrey and U. G. Waite attended the meeting of the Rock county republican central committee at Janesville last Saturday. Last Monday was a very busy day for Blacksmith Stark. He nailed on thirty-two horse shoes besides doing considerable other work.

BREEZY NOTES FROM SHOPIERS.

Anti-Horse Thief Society To Meet—Child Scolded—Pleasant Social Give.

Shoppers, Nov. 29.—The Anti-Horse Thief society of Turtle and Shoppers will hold their annual meeting at Fraternity hall on Saturday evening, November 30. All members are requested to be present. William Cook and wife, of Chicago, came out on Monday last to take care of his father, who is sick with pneumonia. C. H. Weirick's little daughter Marian was badly scalded with hot water from the washing machine Monday last. The Royal Neighbors of this place gave an entertainment and chicken pie supper at the hall Wednesday evening last. A number of ladies and gentlemen from Janesville were present, and all enjoyed themselves. The receipts were over twenty dollars. Clarence Van Gilder and wife spent Thanksgiving with Mr. and Mrs. Frank Culver. Misses Daisy and Lottie Wheeler, of Darien, are visiting Mrs. Theodore Weirick. Thanksgiving services were held at the Methodist church at 10 o'clock, K. K. MacLinton taking charge.

Cooksville Happenings.

Cooksville, Nov. 29.—Clouden Stebbins and wife are visiting in Mad-

ison. Elder Murphy preached his farewell sermon here last Sunday. We are sorry to lose Elder Murphy. It is said Mr. Broughton has been engaged to fill Elder Murphy's place here and in Stoughton. Miss Maud Ellis closed a very successful term of school with appropriate exercises last Friday. There will be a two weeks vacation. Mr. and Mrs. Charlie Miller were called by telegram to Columbia to attend her sister's funeral last Wednesday. Mrs. Nelson died last night of consumption. She leaves a husband and four little children to mourn her loss. Miss Belle Rice returned here last Friday from Janesville where she has been the last three weeks the guest of Mrs. S. Soverhill's. Six ladies gathered at Mrs. Love's last Thursday to sew for the family of Thomas Nelson who has been sick ever since September.

THIS DAY IN HISTORY

1285—Philip IV of France died at the age of 17.
1530—Cardinal Wolsey died; born 1471.
1554—Sir Philip Sidney, celebrated English author, wit and soldier, noted for chivalry and generosity, born; died 1586 of wounds received at the battle of Zutphen.
1780—Maria Theresa, empress of Austria and mother of Marie Antoinette, died; born 1717.
1802—Amos Bronson Alcott, American philosopher and teacher, father of Louisa May Alcott, born at Wolcott, Conn.; died 1888.
1814—First printing by a steam machine, London Times office. The machine used was constructed by Frederick König, a German. It was intended especially for newspapers, to give greater speed than the old style of platen press producing about 1,000 sheets an hour. The Times press made use of the rotary motion to increase the speed. It produced 1,800 impressions an hour. König's press remained in the Times office 13 years before a simpler and more rapid one was built to supersede it.
1872—Horace Greeley died; born 1811.
1874—Constantine von Tischendorf, noted philologist and Biblical critic, died; born 1815.
1882—Dr. John Wetherspoon Scott, father-in-law of President Harrison, died in the White House; born 1800.

History will probably decide that the greatest mystery of the nineteenth century was why the people ever put themselves in the hands of Grover Cleveland and the democratic congress.

The appropriation of \$118,761 by the Methodist missionary conference for the Christianizing of China indicates that the faith and courage of that organization is still at high mark.

The announcement that our petroleum supply is failing, excites the suspicion that the Standard Oil Company is preparing to do a little squeezing, as is the leather and other trusts.

It is after all a good thing for him, that Mr. Cleveland cannot see his administration as others see it. He might do something rash.

Senator Hill will be at liberty to devote his entire time to lecturing on "Liberty," after the expiration of his present term in the senate.

Just wait until Cleveland gets the greenbacks retired and Sovereign boycotts all the bank notes. There will be currency contraction enough for anybody.

If Mr. Corbett is desirous of organizing a company of "ex's" he should not overlook the democratic side of the U. S. senate.

Senator Gorman says the horse is on Cleveland free trade and not on him.

Myers Grand Opera House.

For one night only, Tuesday, December 3, in Myers Grand opera house, will be produced the beautiful play of "Human Hearts" with the original cast and scenery. Among the cast may be mentioned Mr. Hal Reid, the author, and the beautiful and gifted actress Bertha Bell Westbrook. The comedy scenes and situations are of the very highest order, while the pathos has been a source of wonderment to many theatre goers and critics, and that a man so young should write of the sorrows of life in such a masterly manner is much commented upon. Mr. Reid has been shrewd enough to make the dark side of human life a constant study, and in all the scenes, which bring a tear to the eye, he has facts from life in go upon. So with his comedy, so with the sterner scenes, and in "Human Hearts" there is not one unnatural or improbable scene. Being a great lover of nature Mr. Reid has filled his homelike story with yellow roses, dandelions, clover and green grass. It is a living breathing picture of hearts, of "Human Hearts," that throbs in keeping with all that life brings to humanity.

A RELIABLE PILE CURE.

The Pyramid Pile Cure is the safest and surest pile cure on the market, because it contains no mineral poisons nor opium nor cocaine, but can be used with absolute safety and certainty of cure.

Many physicians are now using the Pyramid Pile Cure in place of surgical operations, being painless, convenient to use, and the patient can attend to his daily occupation while the cure is being made, as it is used at night and no additional treatment is necessary.

Dr. Wharton says the Pyramid Pile Cure will prove a blessing to mankind, when it is remembered that heretofore a surgical operation was considered the only cure with all its danger to life, intense pain and an expense of from ten to one hundred dollars, to say nothing of the possible return of the trouble. The Pyramid Pile Cure is sold by druggists at 50 Cents and \$1.00 and does the work quickly and safely.

A book on cause and cure of piles will be mailed free by addressing Pyramid Co., Albion, Mich.

AMBITIOUS WOMEN

MAKE HEROES OF MEN.

She Will Brave Anything for the Man She Loves.

[SPECIAL TO OUR LADY READERS.]

When an ambitious woman loves a man she will spurn him to heroic efforts. She will dare with him the rigors of the frozen North, and encourage him in daring dangers almost unsurmountable. Women are by nature ambitious according to their physical and mental strength. Hope and ambition come with perfect health, but vanish before sickness and despair.

American women are, unfortunately, particularly subject to those painful female diseases that are the cause of so much hopelessness and misery. Could all women realize the undeniable fact that they suffer unnecessarily, how much brighter life would be!

Lydia E. Pinkham devoted her life to the study of female diseases and their cause; and she discovered in the Vegetable Compound an absolute remedy. It succeeds in removing the cause of the trouble.

Women who rely more upon their own natural common-sense, rather than on the theories of their physicians, write to Mrs. Pinkham, at Lynn, Mass., and are soon restored to health.

Here is a living example: "Four months ago I was unable to stand on my feet. I had falling of the womb, kidney trouble, and inflammation of the bladder; the backache and bearing-down pains were dreadful. My physician could give me no relief. A friend said, try Lydia E. Pinkham's Vegetable Compound. Well, I did. Oh, if every suffering woman would do the same, they would be cured, cured absolutely and entirely, as I am!" Mrs. Wm. M. MOREY, 20 Seymour St., Pittsfield, Mass.

MRS. VODRE DIES BESIDE THE RAIL

Mysterious Insane Woman's Tragic
Suicide This Morning.

LEAPED THROUGH A CAR WIN-
DOW TO HER DEATH.

She Had Been Locked in a Coach On
the "Midnight Vestibule" at Har-
vard, But When The Train Reached
Baraboo, She Was Missing—Dead
Body Found Four Miles South of
this City—Her Identity Not Learned
For Some Time.

Mrs. Vodre, aged 70 years, gray-
haired and emaciated, probably from
the use of morphine, had her life
dashed out when she leaped through
the window of the last car on the O. &
N. W. "midnight vestibule" from Chi-
cago near "Reed's crossing" at 2
o'clock this morning. The remains
are now at Kimball's undertaking
room, and the authorities, only after
a prolonged search were enabled to
find out who the dead woman was.

The aged woman got aboard the
train at Chicago, and was bound for
Springfield, Minnesota, where her son,
George P. Vodre, lives. With her was
her ten-year old grandson. Trainmen
noticed that the old lady was acting
queerly, and when the conductor
asked her for her ticket she fought
him. Although she resisted every effort
made to pacify and quiet her, she did
not remove her eyes from the satchel that
was in the seat with her. Stockmen on
the train finally conceived the idea that
the grip contained whisky, and that the
old lady was drunk.

Had Plenty of Morphine

They took the "grip" from her
after quite a scuffle, and on opening
it found seven bottles labeled "mor-
phine," five of them being full. They
thought that she was suffering from
the effects of the drug, and that she
would become quiet when it was
taken from her.

But she did not.
Near Harvard she had another tar-
trum, and finally drove every one from
the car. The doors were then locked
and she had the whole coach to her-
self. At Clinton the conductor tele-
graphed ahead to Madison to have the
company physician at the depot to ex-
amine her, as she was clearly demented,
and all hands were afraid of her. The
train was late in reaching Janesville,
and when it got to Baraboo, Conductor
Harry Garwood telegraphed back that
the woman was missing, and that a broken
car window told the tale of the manner of
her escape. The woman, the telegram
said, had jumped from the car either at
Janesville, or south of here. F. D. Kimball,
Chief Acheson and Sheriff Appleby were
notified at the same time that the railway
authorities were.

Body Is Found

Soon afterward, Conductor F. G. Sughrue's
freight train pulled out for the south,
and near "Reed's crossing" the trainmen
found the body. A message was then sent
back from the block signal station, and
Undertaker Kimball and Chief Acheson went
down to get it.
They found the body to be that of a
woman about seventy years of age,
with some grey hair, and about five
feet six inches tall. She had become so
emaciated that her arms were but bone
and muscle and hardly larger around
than a pitchfork handle. Her right leg
was broken and she had been otherwise
injured. In her pocket book was found
check No. 8, 958, issued by the Grand
Trunk road at Chicago and \$18 in cash,
but nothing was found to indicate her
name or address. The remains were
brought to this city and placed in
Kimball's undertaking room to await
further investigation.

Let It Be Known About Her.

Dispatches to the authorities gave
but meagre information, so Janesville
officers were totally in the dark. One
report said that the woman was on her
way from Canada and that she had
become insane on the car, while another
was that she had once been insane,
and recovered, but was suddenly
afflicted again. What became of the
boy was also a mystery, although it
was said that she had been left by the
trainmen at Madison. The authorities
at once telegraphed for further information.

Before they got an answer, however,
Peter Valey, one of the C. & N. W.'s
keenest detectives, who had been at
Madison, arrived in the city, with the
boy who had been with Mrs. Vodre,
he having learned all about her at
Madison. He told Chief Acheson her
name and said that her home was at
Champlain, N. Y. The lad was Lawrence
Vodre, her grandson, aged 10 years.
The boy told all about his grandmother
and cleared the affair up.

Was Going To Her Son.

Mrs. Vodre, he said, was on the way
to the home of her son, George P.
Vodre, of Springfield, Minnesota.

The latter is a farmer, living nine
miles from that place, and Chief Acheson
at once sent him a dispatch telling him
of the occurrence and asking for further
information. Mrs. Vodre's husband, the
lad said, died a short time ago and that
was the reason they left Champlain.

It was a thrilling tale that the boy
told. He said that his grandmother
became suddenly violent and grabbing
a board, broke out the car window and
jumped. He tried to hold her and she
carried his hat out with her.

It is thought that Mrs. Vodre
bought the morphine when they left
Champlain on November 27 and she had
used the morphine taken from the bottle
since that time, the amount being enough
to craze her. This opinion was formed
from papers found in her baggage.

TWO TRAINS MEET ON A SHARP CURVE

BAD WRECK ON THE ST. PAUL
ROAD NEAR EDGERTON.

Engineer Campbell and Mail Clerk
Murphy Both Somewhat Injured—
Both Engines Were Ruined
and Several Cars Broken
Up.

A freight and a passenger train on
the St. Paul road came together with
a crash near Edgerton at 11:55 o'clock
Wednesday night. The injured:
MURPHY, L. B.; mail clerk; resi-
dence, Milwaukee; cut and bruised;
not serious.

CAMPBELL, engineer on passenger
train; Milwaukee; ankle sprained; cut
and bruised; not serious.

A mix-up of train orders was the
cause. The passenger train was en-
route to Milwaukee from Madison, in
charge of Conductor O. S. Vaughn,
of Madison, who used to run between
Madison and Rockford, and was well
known here. When the passenger
reached Stoughton, Conductor Vaughn
asked the operator for his orders, but
was told that there were none for him.
The operator, however, gave him a
clearance card, and the train pulled
out. A few miles from Stoughton and
at a sharp corner, the two trains came
together.

Wreck a Bad One.

With a crash they met. The two
engines came together with such
force that the wrecking crew broke
all their heavy chains in trying to
pull them apart and both are said to
be complete wrecks. Several freight
cars were also wrecked but no pas-
sengers were injured. Mail clerk
Murphy was knocked about in his
car and received several cuts and
bruises, but it is stated his injuries
are in no way serious. He is now at
Madison receiving medical attention.

Engineer Campbell wrenched his
back in jumping from the engine cab,
but he is not thought to have been
badly hurt. With these exceptions, it
is believed, no one was injured, al-
though the passengers were consider-
ably shaken up and badly frightened.

Railway officials regard it as a most
narrow escape from serious accident
and loss of life.

FIRE AT EDGERTON WILL COST \$11,000

J. W. CONN'S GENERAL STORE
WAS GUTTED YESTERDAY.

His Loss Will Be \$10,000 While the
Hain Estate Will Probably Lose
\$1,000 On the Building—Good Work
Made By the Department—Blaze
at Beloit.

For two hours a fierce fire raged in
the general store of Joseph W. Conn
at Edgerton early yesterday morning.
Then the firemen succeeded in getting
the upper hand, and the blaze was de-
clared "out."

The fire was discovered at 4 o'clock
a. m., and its origin is a mystery. An
alarm was at once given, and the de-
partment got to work, but the blaze
was a hard one to fight, although it
was finally conquered. Mr. Conn had
\$5,000 insurance, but says his loss
will be \$10,000.

The building was owned by the
Hain estate and the loss thereon will
also be quite heavy, probably reach-
ing \$1,000. Such of Mr. Conn's goods
as escaped the fire were damaged by
water. He dealt in general merchan-
dise and his establishment was lo-
cated on the principal street
of the village, a few doors
from the Edgerton bank and across
the street from several tobacco ware-
houses.

The fire department stubbornly
fought the blaze for fully two hours
confining it to the Conn store. The
fire caught near the center of the
store from the stove and worked its
way to the roof.

HIS FOOD COSTS \$5,000 A DAY.

That is the sum the Sultan of Turkey spends on his table.

By far the most extravagant diner in the world is the sultan of Turkey, says the New York Press. His table expenses amount to \$5,000 a day, or \$1-\$25,000 a year. It is the most expensive table and household, in all probability, that any country has ever seen. He is not a sociable man and very rarely has guests or visitors. The sultan does not even have a dining-room or dining hall. Turkish custom among the higher classes is for the servants to bring the meals to wherever the diner may be, and in the palace of Stamboul the menials at the dinner hour first search out his majesty and then in long procession bring in the banquet table and all!

The table is of silver and perhaps the most exquisite table that has ever been made. It precedes the procession, borne in upon the shoulders of lower-grade servants. Following come a long line of jublakiars, who are cook's assistants. On the heads of these are large tables, on which are platters. Such an equable balance do these jublakiars keep that an accident, even the breaking of a dish, has never been known.

The waiters lift the platters from the tables and present each dish to his majesty, bowing low. The dishes are covered and sealed with the imperial seal, which is put on in the kitchen of the grand vizier, so that the sultan may be certain that his food has not been poisoned or tampered with. All at once the dishes are set upon the table, vegetables, meats, ices and sweets being arranged in front of his majesty without any regard to courses or ordinary dinner regulations. When the whole repast is placed before him he runs his eye over the many viands. Then he picks and chooses, eating the whole simultaneously, a pick here and a bite there, a mouthful of meat, a spoonful of ice and a tiny ball of fish. He is a total abstainer and never has wine on the table. At state dinners rare vintages are provided for those seated at other than the imperial board.

PARADISE FOR STRONG MEN.

Scientists Say We All Might Be Samsens if We Lived on Mars.

Mars, as described by Percy Lowell, must be a positively ideal place for strong men. In the first place the Martian man might be three times as big every way without discovering it, except by interplanetary comparison.

"If he were on earth he would weigh twenty-seven times as much as the human being, but on the surface of Mars, since gravity is only about one-third of what it is here, he would weigh but nine times as great. Therefore, the ratio of his supporting powers to the weight he must support would be the same as ours. Consequently he would be able to stand with no more fatigue than we experience. Now, consider the work he might be able to do. His muscles, having length, breadth and thickness, would all be twenty-seven times as strong as we, and could accomplish twenty-seven times as much. But he would further work upon what required, owing to decreased gravity, but one-third the effort to overcome. His effective force, therefore, would be eighty-one times as great as man's, whether in digging canals or in other bodily occupation. As gravity on the surface of Mars is really a little more than one-third that at the surface of the earth, the true ratio is not eighty-one, but about fifty; that is, a Martian would be, physically, fifty-fold more efficient than a man."

TRUE AMERICAN LIFE.

Edward W. Bok Considers That It Exists
Best in Smaller Cities.

It is when we go into the smaller cities of our country that we find the real American life, the truest phases of American living, writes Edward W. Bok in an article on "Where American Life Really Exists," in the Ladies' Home Journal. One need only go into such charming and delightful home cities as Albany, Troy, Syracuse, Binghamton, Rochester and Buffalo in New York state, or in such spots of charming intellectual life as New Haven or Hartford in Connecticut, or Springfield, Worcester or Lowell in Massachusetts, to see how far removed from the truest and happiest way of living are the people of the larger cities. American home life and everything that is uplifting in American domesticity are perfectly fragrant in such cities as Milwaukee, Indianapolis, Louisville, Cleveland or Cincinnati. People live in these cities as if they enjoy living. The very exteriors of homes in these cities breathe forth a wholesome domestic atmosphere. A man of fair income in any of these cities lives like a human being in a home in which the sunshine visits each side of his house during a day. For less money he has a house with ground around it than his brother of greater means who lives in a larger city and has only a brown-stone chest of drawers in a closely-built block into which the sun penetrates only through one side of his house. The man of the smaller community is, necessarily, happier with such living, and his wife and children are the healthier for it. Life means something to a man living in this way; it means contentment and comfort. * * * The quality of intellectual life of the smaller American cities astonishes one who finds it for the first time. And the secret of it lies in the simple fact that people in these cities have more time for the cultivation of mind, for the gratification of mental tastes. Literary clubs and neighborhood guilds have a deeper meaning than in the great cities. A woman's social life is absolutely refreshing and stimulating in these cities, and in direct contrast to the exhaustion of social gayeties of the large cities. But people come closer to each other, and their amusements are more satisfying, more harmonious. * * * Then, too, the church comes closer in the fulfillment of its mission in our smaller American communities. The religious life is truer than in the large centers. The church is taken into the lives of its people, and its interests are their interests, spiritual and material.

With the Regularity of Shuttle.

and nearly as swift the trains of the Lake Shore & Michigan Southern Ry. make their trips between Chicago and New York, weaving closer and closer day by day the many mutual interests of these great commercial centers of the United States. Departing from the Van Buren street station, located in the heart of the business district of Chicago and arriving in New York at the Grand Central station, 42nd street the popularity of this line in point of time and convenience is readily understood. It seems almost superfluous to add that for this service the equipment embodies all that is new and modern in the art of car building, apparently nothing that would give one a feeling of safety, comfort and luxury, has been overlooked. The schedule provides morning, afternoon and evening trains. Latest time table with any information desired will be promptly furnished on application. J. E. Hurley, T. P. Disease and Death

Force their way into many a household that might be protected from their inroads, by the simple precaution of keeping in the house that benign family medicine and safeguard of health Hostetter's Stomach Bitters. Particularly where there are children, should it be kept on hand as a prompt remedy for infantile complaints, in their outset easily conquerable, but which, if allowed to engraft themselves on the delicate child's organism, are not only easily dislodged, and speedily work grievous mischief. Irregularity of the bowels, indigestion and biliousness are ailments of common occurrence in the household. Children, living in malarious regions, are more liable to be attacked with chills and fever than adults, and the ravages of that fell disease in their system are speedier and more serious. In remote localities, far from professional aid, it is especially desirable.

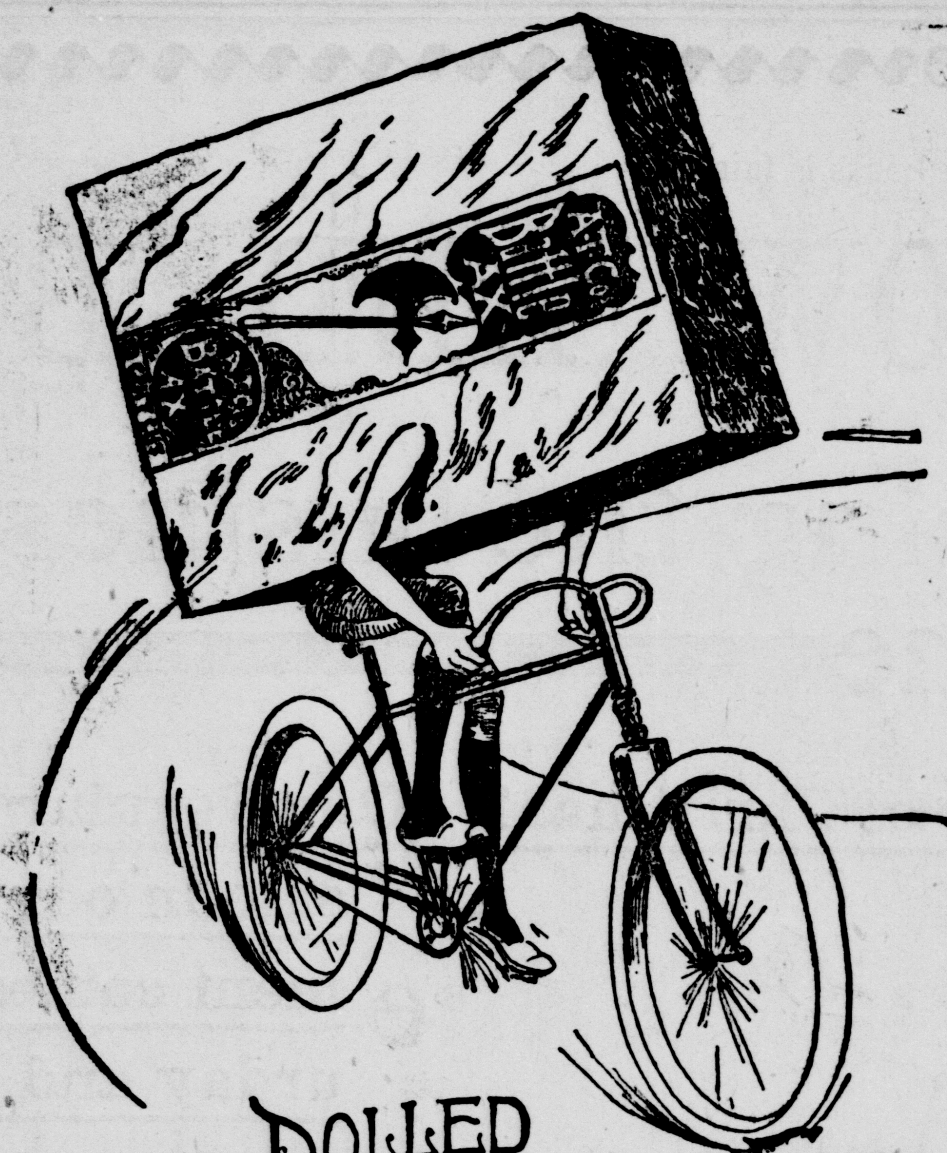

It's just as easy to try One Minute Cough Cure as anything else. It's easier to cure a severe cough or cold with it. Let your next purchase for a cough be One Minute Cough Cure. Better medicine; better results; better try it. C. D. Stevens.
